## About

A passionate software developer with a solid foundation in web development using Reactjs and Nodejs. Seeking to join a forward-thinking team where I can apply my skills and learn from experienced professionals. Committed to continuous growth for both myself and my team.

## Education

- **React Web Developer** Apr 2024 - Oct 2024 (As expected)
  - Scholarship of Digital Egypt Builders Initiative (DEBI) of the Ministry of Communications
  - New Horizons Company - Cairo - Egypt
- **Bachelor Of Commerce** Oct 2022 - Oct 2026 (As expected)
  - Cairo university - Egypt

## Skills

**Languages:** C++, HTML, CSS/SCSS, JavaScript/JSON, SQL, Python, UML

**Software Concepts:** Data Structures, Algorithms, Unit Testing, Database Designing, OSI, OOP/OOD, SOLID Principles, Problem Solving, Competitive Programming

**Database Technologies:** SQL Server, MySQL, MongoDB (NoSQL)

**Web Technologies:** Nodejs, Expressjs, Nextjs API Routes, Reactjs, Nextjs, Jest, Tailwindcss, Reduxjs/RTK, JQuery

**Web Development Tools:** Git/Github, Figma, Webpack

## Projects

- **Ragab-Portfolio** 
  - My personal website, where I showcase my technical skills and my latest projects, developed using React.js, Next.js, Tailwindcss, and JSON
- **Ragab-CV** 
  - My personal interactive CV, a modern, functional website that presents me in the field of web development, developed using HTML, CSS, Tailwindcss.
- **Tod** 
  - A Todo List website, with a user-friendly interface and seamless user experience,
  - Enhanced by the ability to save and retrieve tasks across sessions using localStorage
  - Developed using React, Next.js, Tailwind CSS, and Figma
- **Ramy-Fitness** 
  - Comprehensive fitness website, featuring an ExerciseDB API built with Next.js API routes
  - Customizable workout plans with seamless card functionality and advanced filtering developed using React, Nextjs, Tailwindcss, Figma, and JSON
- **Comphy-Store** 
  - An E-Commerce website, designed with seamless card functionality and advanced CRUD filtering, developed using React, Nextjs, Tailwindcss, Figma, Redux, and JSON

- API built with Express.js and JSON, ensuring efficient data management and secure transactions

---

## Certificates

- **Mastering 4 Critical SKILLS Using C++17** 
    - Such as programming, problem solving, project building, and desing skills
    - By Dr.Moustafa Saad Ibrahim - CSGitSkilledAcademy
- 

## Languages

- **Arabic** - Native
- **English** - Conversational
